

RoHS Certificate of Compliance

EC directive 2002/95/EC (the RoHS Directive) restricts the use of hazardous substances listed below in electrical and electronic equipment.

For these purposes, the maximum concentration values of the restricted by weight are:

Substance	Maximum Limit (ppm)
Cadmium (Cd)	100
Lead (Pb)	1000*
Mercury (Hg)	1000
Hexavalent Chromium (Cr6+)	1000
Poly Brominated Biphenyls (PBB)	1000
Poly Bominated Diphenyl Ethers (PBDE)	1000

\*Maximum limit (ppm) on Lead (Pb) does not apply to applications for which exemptions have been granted by the RoHS Directive

Based on the information provided by our suppliers, and to the best of our knowledge, PJRC.COM, LLC designates that the products it sells are RoHS Compliant and conform to the European Unions Restrictions of the use of Hazardous Substances (RoHS).

For these purposes, RoHS compliant means that our suppliers have confirmed the compliance status of the relevant products to us and that our assembly vendors have confirmed the use of RoHS compliance materials.

Confirmation of compliance status by our suppliers is either because the products do not contain any of the restricted substances referred to in Article 4(1) of the RoHS Directive at concentrations in excess of those permitted under the RoHS directive or because removal of the restricted substances is not technically possible and their existence in the products at levels in excess of the concentrations is allowed as one of the particular applications listed in the Annex to the RoHS Directive.

To the best of our knowledge, none of our suppliers use these banned substances to manufacture their products. Our statements in this letter regarding RoHS compliance and lead content do not extend to, or apply to any product subjected to unintended contamination, misuse, accident, or improper installation
